

定制产品
Customized Products

什么是定制产品？

What is a custom product?

⋮

下面的示例会为您未来的设计提供一些新的解决方案。

⋮

The examples below will provide you with some new solutions for future designs.

变径尺寸/Variable diameter size

- 一个接头可以代替几个接头组合
- 减少装配时间
- 降低泄漏可能性及成本
- 减少库存
- One connector can replace several connectors;
- Reduce assembly time;
- Reduce leakage possibility and cost;
- Reduce inventory;

加长接头/Extended connector

- 避免长管或者接头连接组合
- Avoid long pipe or Connector connection combinations

非标准端部/Non-standard ends

- 管端及油口端
- 例如:连接公制及英制管
- Pipe ends and oil ports
- Example: connect metric and imperial pipes

有限孔径/Finite Aperture

- 孔 $\geq 0,3$ mm
- Holes $\geq 0,3$ mm

标准接头再加工/Standard connector reprocessing

- 根据客户需求将标准接头再加工
(短螺纹, 内螺纹测压点接头等等)
- Reprocess standard connectors according to customer needs (short threads, internal thread pressure point connectors, etc.)

- 大多用于非正常变化场合
- Mostly used in abnormal change situations

焊接接头/Welding connector
